Kushal Kafle

Senior Research Scientist, Adobe Research

kushalkafle@gmail.com kushalkafle.com Google Scholar /kushalkafle /kushalkafle

Research Interests

Multimodal LLMs / vision-language models (VLMs), representation learning, foundation model training on web-scale data, benchmarks, evaluation and model probing, robustness and fairness

Experience

Adobe Research, San Jose, CA *Mar 2020 – present*

Senior Research Scientist 2 (2026); Senior Research Scientist (2024); Research Scientist 2 (2022); Research Scientist (2020)

- Lead Adobe's vision-language foundation models across the full lifecycle (data, legal, training infrastructure, algorithms, and tech transfer): image-text embedding models and, recently, multimodal LLMs / VLMs.
- Our embedding model matches or beats the best open-weight models on text-to-image retrieval benchmarks, by a wider margin on Adobe content.
- Mentored 28 research interns (2020–2026), mostly PhD students (full list).

Research Intern, Microsoft Research (2019); Adobe Research (2017 – 2018)

Education

Ph.D. in Imaging Science, Rochester Institute of Technology *2014 – 2020*

Advisor: Christopher Kanan. Thesis: *Advancing Multi-modal Deep Learning: Towards Language-grounded Visual Understanding*

Selected Technology Transfers

- **Adobe Express and Adobe Stock** *(2023 – present)*: Natural-language and image search for Express templates (higher click-through, fewer no-result searches) and Stock assets; "More like this" template similarity.
- **Adobe Lightroom** *(2025 – present)*: Natural-language photo search, plus assisted culling and Auto Stack via a compact on-device model.
- **Adobe Firefly Image Generation** *(2023 – 2025)*: Reference features in Firefly Image 1–3 (Style Reference, similar images); NSFW safety filter for image and video; training-data filtering.
- **Premiere Pro Media Intelligence** *(2025)*: Visual search in the Media Intelligence and Search panel.
- **Other:** Firefly image-to-video (prompt coherence and safety); AEM Smart Tags; Photoshop prompt-free object compositing.

Selected Publications

32 peer-reviewed papers; selected below. Full list on Google Scholar and kushalkafle.com.
